Please explain your interest in serving on this Board/Committee/Commission	I am interested in being part of this board because I had a massive stroke three years ago. Since then, I have noticed how underserved the disabled community is not only here in Cheyenne, but around the world. I feel like I have a lot to offer based on my experience, including the fact that I am wheelchair bound, have limited use of my left side and motor skills.
Other City or community volunteer experience	Cheyenne
Skills & Experience	I have many skills and experiences that would make me an ideal candidate for this board, including my community involvement, educational background, and activism background. I have been involved in the Cheyenne community for 21 years. Since my stroke,I have been actively involved in the CRMC stroke survivor support group including participating in speaking and assisting others at their annual stroke symposium. Before my stroke, my community involvement was based primarily on educational leadership and lobbying on behalf of public education at the local, state, and national levels. I also created opportunities for my students to participate in local community events, including community Christmas caroling, helping out the Salvation Army by ringing the bell during the holidays, and singing at the state legislature. All of these experiences helped me to communicate my

	vision and my ideas to increase access for the disabled and to open the eyes of the community to the needs of the disabled.
